

Advanced Technologies & Farm Management

Analytics | Artificial Intelligence & Machine Learning Solutions | Automated Crop Care | Big Data & Data Aggregators | Business model innovation | Connectivity, LoRaWAN & Narrowband Solutions | Context Aware Computing | Crop Management & Monitoring | Data Collection & Processing | Data Modelling & Visualisation | Decision Support Modelling | End-to-End Farming Management Solutions | Forecasting & Monitoring | In-field soil management | Internet of Things | Machine Learning | Next Gen Soil Sensing | Pervasive Automation | Post-Harvest Innovation | Precision Agriculture | Precision Farming | Smart Farming | Soil & Crop Input

Agricultural Inputs

Agribusinesses & Cooperatives | Fertigation | Fertilisers | Fuel & Diesel | Irrigation Systems | Pesticides | Seed | Soil Science & Soil Additives

Agricultural Science

Agrometeorology | Bio / GeoChemical Sensors | Biofabrication | Bioinformatics | Biorefinery & Biofuels | Biosafety Systems | CRISPR Gene Editing & Rapid Iteration Selective Breeding | Food Preservation Technology | Functional Food & Food Design | Genomics & Genetic Engineering | Hydrology | Nanotechnology & Bio-Nanotechnology | Next Generation Biotechnologies | Protein Transition | Synthetic Biology

Financial Services & Market Access

Accelerators & Incubators | Agri E-Commerce | Alternative Credit Scoring & Saving | Angel Investors | Banks & Commercial Lenders | Block Chain Solutions | Commodity Exchange & Ag Commerce | Crowdfunding | Direct-to-consumer platforms | Direct Corporate Investment | Fintech | Government & Development Finance Institutions | Insurance | Specialist Agricultural Lenders

Automation, Equipment & Mechanisation

3D & 4D Printing Technology | Automation & Mechanisation | Drones & UAV Technology | Farming Equipment Technology | Virtual Fencing | GIS Mapping & Satellite Imaging Technology | Robotics | Sensor Technology | Transport & Autonomous Vehicle Technology

Advisory & Market Information Services

Advisory Firms | Agricultural Associations | Agricultural, Science & Technology Focused Media | Agriculture Extension Providers | Digital Advisory Solutions | Economists | Foreign Trade Offices & Country Pavilions | Government Agencies & Departments | International Development Partners | Macro Agricultural Intelligence Solutions | Market Linkage Services | Policy Bureaux | Research & Development Institutes | Consultants & Specialist Industry Service Providers | Specialist Professional Services | Training & Knowledge Sharing Platforms

Controlled Environment Agriculture

Aquaponics Solutions | Automated Crop Care | Container Systems | Greenhouse Growing & Production | Hydroponics Systems | Nursery Automation | Sunless Growing & Lighting Systems | Urban Farming | Vertical Farming Solutions

Logistics & Supply Chain

Cold Chain Technology | E-Logistics | Food Safety & Traceability Solutions | Supply Chain & Logistics Solutions Providers | Third Party Verification Software

Sustainable & Renewable Farming

Carbon Marketplaces | Climate Aware Farming Solutions | Cover Crops | Ecosystem Enablers | No-Till / Low-Till Farming | Off-Grid Developments | Pasture / Grazing Management | Regenerative Farming | Renewable Energy Applications | Smart Water Technology | Sustainability Dashboards & Verification | Waste Collection & Management | Waste to Energy
